PO BOX 220, WHITE RIVER, ON CANADA P0M 3G0

The **Ultimate Canadian Wilderness** Fishing Vacations begin here

White River Air, is the first and still the only fly-in outfitting air service out of White River. Operating since the 1950's our commitment to our customers has always been to provide the highest quality fly-in fishing and hunting experience possible. Limiting our anglers at each location enables every party the opportunity of catching a trophy **Walleye, Northern Pike, Lake Trout or Speckled Trout.**

Rough it in **Comfort**

With the addition of running water and electricity to several of our wilderness camps you can now experience the amenities of home while fishing low pressured pristine waters of the Canadian Wilderness. We have more choice than any other outfitter in the province and our lakes are specifically chosen for their remoteness and high quality fishing!

Top Notch Aircraft & Equipment

Owning and operating our own aircraft allows us to provide our guests with the most reliable and well maintained fleet in the business. Our full time maintenance crew will ensure your Outpost Cabin is in top notch condition and your boats and motors run flawlessly.

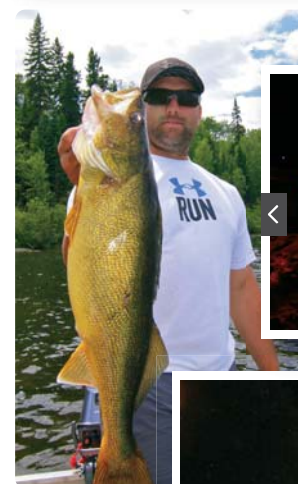

Your Remote Fly-in Fishing **Experience**

After your flight, there is nothing more exhilarating than loading your fishing gear, boating out in clear and unpolluted waters with the knowledge that you are going to catch your dinner while admiring the **Magnificent Canadian Wilderness.**

All This Wilderness is just **One Day Away!**

Our seaplane base is just one day away from most mid-western American or central Canadian cities. Or should you be coming from further afield we are just one day away from most North American airports. Why drive for two days when Canada's best fly-in fishing and hunting can be found here!

We here at Fish 'n Canada have learned a thing or two about fishing in this great country and one of our key discoveries is the Algoma district of Ontario. Within the district we know we can count on North To Adventure to put us on to fish throughout the entire fishing season.

This season we luckily added to our NTA fly in fishing list with White River Air and trust me...these guys produce BIG TIME! To be able to make a 10 hour drive from southern Ontario and then take a short fly-in to some of the country's best fishing is almost unbelievable but that's exactly what White River Air is all about.

One day we were catching rod wrenching giant Northern Pike and the next we were vertical jigging 24-26 inch walleye almost at will!

If you're going to invest your money into a trip of a lifetime, then invest in a company that can make it a reality.

White River Air ... I already can't wait for my next adventure!
